

Flaine is known for its Bauhaus-inspired buildings and monumental outdoor sculptures by Picasso; a ski resort like no other. This town is part of the Grand Massif ski area, one of the largest ski regions in France. As a result, there's a wealth of opportunities for skiers here, especially when most accommodation is ski-in-ski-out. You could almost ski up to your doorstep in most places to stay here. The slopes have a massive variety of difficulties, so any skier will be able to find the right challenge for them.

Top Runs

- For advanced beginners, the Méléze green slope is uniform and safe, which allows those who are new to skiing to find their speed easily. Although a small challenge for beginners, this run can help inspire confidence.
- The blue Méphisto is a firm favourite in the region. This wide-open run heads straight towards the centre of Flaine. With a tree-lined section, the landscape and terrain are varied.
- Les Cascades is the longest run in the region at 14km and an elevation of 1,700m. Although quite long, this easy run leads from Flaine to Sixt.
