

**Les Deux Alpes** in France is best known for having Europe's largest skiable glacier, and boasts one of the world's greatest on-piste vertical drops: an exhilarating descent of 2,268m, which you can ski the whole way down. The resort also has one of the largest snowparks in the Alps, and offers a wealth of off-piste potential. It has plenty of easily-accessible beginners' slopes and lots of activities for non-skiers such as swimming, bowling and spas. This makes it a resort that is well suited to most categories of visitors and an ideal choice for mixed-ability groups. It is also renowned for its lively après ski and nightlife.
