

**Morzine** is a traditional French farming town that oozes Savoyarde charm, complete with attractions such as a weekly market, a multitude of traditional rustic chalets and a whole host of luxury accommodation and dining options. Its as popular in summer as in winter, sprawling along both sides of a river gorge. The family-friendly resort is ideal to explore the enormous Portes du Soleil; one of Europe's largest, linked ski areas.

## Top Runs

- For beginners, the wide village nursery slopes are convenient, and benefit from snow guns.
- Good intermediates will enjoy the challenging red and black down from Chamossiere. Mont Chery, on the side of Les Gets, has some steep runs that are usually very quiet.
- Those looking for something less steep have a great choice. Le Pleney has a compact network of pistes that are ideal for groups with mixed abilities: there are blue and red options from every lift.
- Heading from Le Ranfoilly to Le Grand Pre on the blue is also a nice cruise. The slopes down to Les Gets from Le Pleney are easy when the conditions are right.
