

Sierra Nevada is one of Europe's highest ski resorts and also snow-sure. This Spanish ski resort is famous for its long hours of sunshine and late-season skiing. Thanks to its high altitude, the season runs from December to April. The pistes cater to beginners and intermediates with wide blues and long red runs. From the slopes, enjoy stunning views of the Atlas Mountains all the way in Morocco. Split into four separate ski areas, great links join them all together for 102km of skiable terrain. The historic city of Granada lies at the base of the national park, offering a change of scenery to those who wish to explore.

Top Runs

- **El Rio** – The most challenging piste for intermediate skiers, this blue run finishes at the village, making it one of the most popular runs in the ski resort.
- **Águila** – The longest piste in Sierra Nevada, it runs the length of the entire ski resort for more than 6km. With a run as long as this, expect a variety of slopes and sceneries.
- **Neveros** – One of the large black runs of the ski resort, Neveros is narrow and steep offering a challenge to advanced skiers.
